Best Practice Paper

Clergy Meditations on the Weekend and Clergy Housing

ORIGINAL DATE: April 2022

Revision 1: June 20, 2022

Clergy Meditations on the Weekend

The Clergy Meditations on the weekends are designed to simply be read for their presentation. This reading process assures that the meditations will stay on point both for content and time as related to the other activities and rollos on the weekend. The meditations do give some allowance for interpretation and if they are interpreted for presentation by the weekend clergy then they should abide by the following guidelines:

1. They must stay within the content outline of the material for the meditation from the Tres Dias official versions.
2. They must stay within the time limit allotted for the meditation.
3. And finally, if they are interpreted instead of read, they may be presented and critiqued at the team meetings in order to allow the team to hear them and to make sure that they abide within the guidelines of steps one and two previously stated in order to maintain a consistent flow of information throughout the weekend experience.

Clergy Housing on the Weekend

In the event that a husband and wife team are both serving on the same weekend team in whatever capacity, they should not stay in the same room together and refrain from intimate touching during a weekend for the sake of both the team and the candidates who have been separated from their spouses for the 72 hours of the weekend. The weekend is for the candidates and should be the sole focus of all that are serving on the weekend team.

Prayerfully submitted,

June 20, 2022
